## Skier remote trigger in Wolverine Bowl

Wolverine Bowl Bridger Range 4/5/2023 Code SS-AS-R2-D1.5 Elevation 8000 Aspect SE

511

Latitude

45.83010

Longitude

-110.93400

Notes

Skinner triggered <u>slide</u> north of the hourglass. Run name unknown. Remotely triggered from ridge line; snowboarder said he was skinning 35 feet away from <u>trigger point</u>; no one buried. I also observed point releases as I was skinning up to texas meadows; snow seemed to change quickly under blue skies and increasing temperature. Slide ran in front of me, taking out the skin track.

Number of slides

1

Number caught

0

Number buried

0

Avalanche Type

Soft slab avalanche

Trigger

Skier
